Under 37 CFR 1.97

This Supplemental Information Disclosure Statement is filed to report a search report from the European Patent Office dated 7 October 2003, with regard to application 01250442.9, which also claims priority from German application 100 64 597.6, filed 18 December 2000. As it is reported within three months of the search report, it is timely filed without fee.

The filing of this Information Disclosure Statement shall not be construed as a representation that a search has been made (37 CFR §1.56(g)), an admission that the information cited is, or is considered to be, material to patentability or that no other material information exists.

The filing of this Information Disclosure Statement shall not be construed as an admission against interest in any manner. Notice of January 9, 1992, 1135 O.G. 13, at 25.

This Information Disclosure Statement is made to comply with the duty of candor imposed on all individuals associated with the filing or prosecution of this application, as

Also, please note that the European examiner has considered the two references to be relevant only as "A" references.

The foregoing Information Disclosure Statement is based upon the information known to the inventor or contained in the undersigned attorney's file as of the filing date of this statement and is inclusive of the best information known to each of the undersigned at that date.
